- Know history, trends, and directions in Catholic school education.
- Plan strategically to increase funding and enrollment.
- Advocate for Catholic schools and their families.
- Inspire others to embrace a shared vision for the future.
- Lead and build school faith community and a positive Catholic culture.

I minister in a rural diocese with limited connections to other Catholic schools or to a Catholic University. Creighton’s online Catholic School Leadership Program afforded me not only access to a top notch Catholic university, but the opportunity to collaborate with Catholic school leaders from across the country. I appreciate how the CSL classes and instructors encouraged me to use self-reflection of professional and personal experiences as a tool to enhance my vocational ministry. The CSL program modeled what every Catholic school should be: academically excellent and caring for the whole person; spiritually, physically, emotionally and socially.

COURSE DESCRIPTIONS

My undergraduate and graduate programs were designed for public school educators, so I felt unprepared when I became a Catholic school principal. This program has been the single best thing I have done to understand my role as a Catholic school administrator. My staff and I have a renewed sense of mission as Catholic school educators, and this positive change has been noticed by the community.
